

## IR MINI LCR

The InRoom Mini LCR was the first in a series of compact high-performance speakers from Triad. Mini LCRs are designed to provide impressive high fidelity out of a small package, and they are available in three applications-based versions for nearly any conceivable installation scenario. The InRoom Mini LCR, despite its small size, delivers a big home theater experience when mated with any of Triads fine Subs and Surrounds.

And because InRoom Mini LCRs are built-to-order in America, an almost infinite amount of custom paint and real wood veneer options are available, to handsomely blend your system into your room. The InRoom, InWall, and InCeiling versions all feature a paintable Acoustiperf grill, sealed, engineered enclosures, and virtually identical performance. Choose the appropriate version for the best results regardless of placement.

Category: Home Cinema

Tag: InRoom

### Features

Compact Design.  
Triad AcoustiPerf metal grill.

### Enclosure

Fully engineered, Premium MDF enclosure.  
Acoustic Suspension.  
2-way design.

### Finishes

Triad's Basic, Real Wood Veneer & Custom Finishes are available for this product. The standard finish for this product is Black paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish. The veneer finishes are made from real wood and coated with an enamel clear coat.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
