Finishes

The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product.

INCEILING BRONZE OPENROUND

Triad's entry level open-back ceiling speaker has a lot to offer at a reasonable price, both in performance and looks. The Triad InCeiling Bronze OpenRound features a 5-1/4" carbon fiber composite woofer, and an adjustable and aimable 1" fabric dome tweeter for greater clarity at the listening position.

The grill is extremely designer-friendly, does not use a bezel, and you have a choice of either a round or a square grill, at no additional cost.

The speaker can retro-fit into an existing ceiling, and new construction brackets are also available. Installation is simple and straightforward. Custom paint matching is available from Triad, at a modest cost. For distributed audio installations where sound isolation is not an issue, Triad's new InCeiling Bronze OpenRound delivers great performance and value with a designer look everyone wants.
